MILITARY VOTES ARE STRONG FOR GEN. EISENHOWER

Seventeen of the 23 county Republicans who returned military ballots in the recent primary election favor Gen. Dwight D. Eisenhower as their candidate for president of the United States, according to the count of military ballots completed by the county election board Friday afternoon.

Three of the military men voted for Stassen, two for Taft and one for Warren. On the Democratic side only three men in military service returned ballots. Two favored Estes Kefauver for president and the third expressed no preference.

Nineteen of the Republicans voted for Edward Martin for U.S. Senator, three for Steele Clark and one for James P. Scoblick. Thirteen favored John C. Arnold for judge of the Supreme Court and four voted for Harry M. Montgomery. H. Earl Pitzer received 16 votes for representative in the General Assembly and eight voted for Francis Worley. Ruth Linah Orner had 12 votes for county vice chairman and five were cast for Esther Hayberger.

McPherson High

John H. Baschore received 18 votes for county chairman; J. Arthur Boyd 19 and Oliver J. Dickey 14 for alternate delegate to the national convention; Samuel S. Lewis 17 and George W. Kunkle, Carlisle R. 6, 16 for national convention. C. W. Epley was given 19 votes for member of the state committee and Attorney Donald P. McPherson Jr. was "high man" on the soldiers' balloting with 22 votes for state senator. One of the men sending in ballots voted for only two men, Earl Pitzer and a committeeman in his district.

Despite the fact that many committee elections were extremely close, the votes of the military did not cause or break any ties.

On the Democratic ticket nearly all candidates listed received all three of the military votes. In the vote for auditor general Joseph received one vote and Blatt, two; in the vote for delegate to the national convention, Bentzel received two votes and John S. Rice three.

SOFTBALL LOOP MAPS PLANS TO OPEN MAY 14

Plans were completed for the opening of the Gettysburg Softball League on Wednesday evening, May 14, at a meeting of league officials Friday evening at the Moose home when rosters were approved, the schedule adopted and forfeit money posted.

Dedication of the recently completed permanent bleachers and regular opening night ceremonies will be staged and a committee composed of Paul Anzengruber, Carroll Smith and Don Bream was named to make arrangements.

Bills totaling \$130.46 for painting the bleachers and ground to be used in filling-in the infield were ordered paid. Jack Taylor, treasurer, reported that during the last year receipts from collections, admissions and donations amounted to \$4,685.12 and bills amounted to \$4,605.62.

A drawing was held for the services of Clarence Dorn, formerly of the Stanton Legion which has withdrawn from the circuit, and he was added to the roster of the VFW squad.

Reconditioning of the field was scheduled for next Monday, Tuesday and Wednesday evenings and each team was assigned to provide a group of workmen for those evenings.

President Johnny Knox presided at the meeting with all teams represented with the exception of the Penn-Ceramic.

Eastern Loop

By The Associated Press
The Elmira Pioneers' win streak was snapped and their perfect home record spoiled, but they still led the Eastern League today.

The Reading Indians lanced Elmira's four-game string with a 9-5 victory last night. It was the Pioneers' second setback in nine starts and their first on home grounds this season.

Meantime, the Binghamton Triplets, who started a long evening in second place, muffed a chance to tie for the lead and dropped to third place behind Reading after splitting a doubleheader at Albany.

The Triplets took the opener, 3-2, but the Senators got stubborn in the nightcap and won 4-3 in 13 innings.

In other games, Schenectady beat Hartford 9-6 to sweep a two-game series and Scranton, playing at home, beat the winless Williamsport Tigers, 7-2.

DELONE DOWNS WESTMINSTER IN OVER-TIME

Delone Catholic High hiked its baseball record to 2-2 with an 8-7 victory over Westminster Friday at McSherrystown in a game which required two extra innings.

In the last of the ninth Hagerman, Delone lead-off man, fanned. Funk singled, Billman walked and Legor also stroled to fill the bases. Tom Smith, who had previously tripled and singled, smashed a double to center, driving over the winning tallies.

Westminster had broken a 6-6 deadlock in the top of the ninth on Barrick's single and a pair of Delone miscues.

Next Tuesday Delone will be host to St. Francis Prep.

AL ROSEN HITS HIS 7TH HOMER AS TRIBE WINS

By JACK HAND
(Associated Press Sports Writer)

Al Rosen's winter batting practice is paying off for the Cleveland Indians with a spring home run spree.

Rosen fopped with the rest of the Tribe as they lost the pennant to the New York Yankees in the 1951 stretch drive.

Back home at Miami, Fla., with a chance to think it over, Al drew

up a positive plan for '52. Shortly after the first of the year he started daily workouts. With a high school boy lobbing them up, he took his cues at Miami Beach's Flamingo Park.

Baseball Beat Browns
Rosen hit a satisfactory 309 pace while the Indians jousting with the other western clubs. Once they hit the East early this week, he caught on fire. Against the Philadelphia A's and Washington he collected nine hits in 18 times at bat for a .500 mark, boosting his average to .363.

Last night he blasted his seventh homer of the year, with two on, to trample Washington, 6-2.

Walt Dropo set the home run pattern in the afternoon at Fenway Park with a bases-loaded blast off Ned Garver in the Boston Red Sox's 13-6 riot against the St. Louis Browns.

A's Beat White Sox
Eddie Lopat found the grove against Detroit to throw a two-hitter for the Yanks' 4-1 victory.

Philadelphia outscrambled the Chicago White Sox, 13-12, in a weird night game at Shibe Park.

Cmar Turk Lown of the Chicago Cubs pitched eight no-hit, no-run innings against Brooklyn only to blow up in the ninth and lose the game, 3-1.

The New York Giants scored in the tenth, one a homer by Wh. Lockman, to down Pittsburgh, for their fourth straight win.

In other games Boston's Br scored a 2-1 victory over Cincinnati and St. Louis shaded the Philadelphia Athletics, 3-2.

WILL GET JACKETS
Members of the Moose soft team are requested to meet at Moose home on York St., Mor evening at 8 o'clock at which measurements will be taken new jackets.

INFLUENCE
By GEORGE MATTHEW ADAMS
Influence can well be compared to the light of the sun which takes to itself, and nourishes, everything that it touches. We are constantly being bare-breasted to influence from somewhere, something, or some other person. For good or ill we are daily being influenced.

Influence is everlasting. Socrates took the hemlock and died—but the influence of his life and teachings is as alive today as when he lived. And this thing of influence is as true of thousands of others who have lived, died—and lived again!

Who can measure the influence of Paul, the Apostle, or of Christ? There is nothing so deathless as influence. A thousand years from now books will tell about the influence of Gandhi, who emphasized a life far greater in good than any popular warrior.

How few are the books that can for a moment be placed beside Tolstoy's "War and Peace!" Who can measure his influence upon human thought and upon the novels of other writers? Many testify to the fact that it is the greatest novel in all literature. Take such books as Emerson's "Essays," Thoreau's "Walden," Shakespeare's plays, Darwin's "Origin of Species," Boswell's "Dr. Johnson," the poems of Robert Burns. How they have cast a glow of influence over the minds of the world!

Montaigne is considered to be the originator of the essay. He was influenced not by what he read so much as by what he saw. Said he: "I wish to make the world my book of study." That is why his fame endures, and people are influenced by the thoughts that he expressed. Few books are so stimulating as his frank and honest Autobiography, edited and compiled by Marvin Lowenthal from Montaigne's writings.

The Bible stands alone as the book that has influenced more lives than any other ever put into print. It is unique among books and has inspired millions. What a wonderful thing it is to influence another toward happiness! Influence, once planted, grows and lives forever!

QUESTION
Must we wrangle over trifles,
With each other quarrel ever
And the selfishness that stifles
All that's best be mastered never?

Must we measure jot and tittle,
Fight for them with claw and
sneer;
Over differences little
Let the ancient hates continue?

Shall we never learn to give in
Now and then, as would a brother,
And thus find the way to live in
Peace and fairness with each
other?

These five will be given to a committee of three disinterested persons who will choose the two best works of the five submitted. Judging will give seventy per cent for content, twenty per cent for English and grammar and ten per cent for neatness.

Five of the senior students participated in the National Business Entrance tests held at the William Penn High School, York. NAVY CRITIC
TO BE TRIED BY
COURT MARTIAL

PEARL HARBOR (AP)—Millionaire seaman Bruce S. Hopping, currently a leaf raker facing court martial for criticizing Navy discipline, says he is fighting the "system of inequality in the whole Navy."

"The American public should know what goes on," the Maplewood, N. J., naval reservist said Thursday in an interview. "They should know their money is going to waste because of poorly handled indoctrination and personnel policies."

Heads Lumber Firm
He is vice president of a three million dollar New Jersey lumber firm.

Rear Adm. Francis C. Denebrink, Pacific service forces commander, recommended a special court martial—second severest in the Navy—for Hopping. He said the sailor should be tried on charges of "violation of Navy regulations and conduct to the prejudice of good order and discipline."

Hopping has had three unsuccessful jousts with the Navy. He publicly criticized Navychow as unfit to eat last September at Bainbridge, Md.

Led Crew Complaints
He led crew complaints last February against discipline aboard the salvage ship Reclaimer. A Navy board exonerated the Reclaimer's two top officers.

Hopping's latest brush came Saturday when he called on Denebrink for an "informal chat" while the admiral was breakfasting in his pajamas. He said Denebrink told him to get out.

—for Hopping. He said the sailor should be tried on charges of "violation of Navy regulations and conduct to the prejudice of good order and discipline."

Hopping has had three unsuccessful jousts with the Navy. He publicly criticized Navychow as unfit to eat last September at Bainbridge, Md.

Led Crew Complaints
He led crew complaints last February against discipline aboard the salvage ship Reclaimer. A Navy board exonerated the Reclaimer's two top officers.

Hopping's latest brush came Saturday when he called on Denebrink for an "informal chat" while the admiral was breakfasting in his pajamas. He said Denebrink told him to get out.

Riding with Russell

REG. U. S. PAT. OFF.
by FREDERICK C. RUSSELL
Member S.A.E.

What usually make a man buy his wife a new car is his wife.

Curves To The Fore

This year you will be hearing a lot about the ability of some cars to take curves much better than others. Some of what you hear will probably be the product of imagination, but a little of it will make sense. The anti-sway bar is quite a factor in checking that feeling of tipping on curves, but there has always been a difference of opinion as to whether the bar is more effective up front or in back. Shock absorber control is extremely important. If shocks can offer more resistance as they are compressed, so much the better. Any car will have a tipsy sensation if the shocks are weak in action.

Some engineers speak of the car's "feelbase." It is something more complex than wheelbase and involves a lot of other factors such as weight, distribution, steering gear ratio, tread width. This year there will be some praise for the plan of having the front wheels wider apart than the rear. However, it must be recorded that some of the most steady cars on turns are those with equal front and rear tread.

Check Up On Lights

A count of the number of lights on my car shows that there are 18 of them. Some cars have as many as 28, ranging all the way from the midlights for glove compartment and the speedometer dial to the big stop-light bulbs and sealed beam headlights. This means that to be fully protected against lighting failure we should check quite frequently. It's no wonder the battery today needs monthly re-energizing and charging to keep in condition. In addition to the big job of illuminating it is being called upon to supply the basic needs of the car heater, radio, horns, electric windshield wiper, cigarette lighters, defrosters and ignition system. Some cars add the further load of an electric fuel pump, electric choke and crankcase ventilator.

Guidance Via Radio

I have always believed that special broadcasts for motorists would do a great deal to encourage the use

of car radio and that this would serve to do more than keep sleepy drivers awake. Now we are seeing this come to pass in the special broadcasting to users of the Lincoln Tunnel under the Hudson River. Basic broadcast is music, but if you tune in when using these tubes you get first hand information regarding anything that has to do with the tunnel and traffic conditions. If there is a tie-up you are told why, and what you should or shouldn't do.

Mechanic Joe Speaking:

"When the current regulator shows that the generator is overcharging it is a wise driver who remembers what motorists used to do in the days before these protective devices were in the car."

calls for frequent checking of the water level in the battery. Overcharging can be checked by more frequent use of the starting motor, although the plan of burning the headlights is better for the battery because it provides a more balanced condition. Using the car radio and the ventilating blower is also effective. The point is it just isn't necessary to assume that because the regulator is out of whack the battery has to be punished, too."

Sort Of Temperamental

which mechanics use when faced with a reluctant motor is to let the thing ride for awhile. Often when they go back to the engine a half hour later it goes off with the proverbial bang. Owners, inclined to be perplexed and always in too much of a hurry, just go on cranking until the battery is dead and nervously pump on the accelerator until the engine is badly flooded. Engines can be quite temperamental. Leave 'em alone until they get over it.

Meetings of the Society of Automotive Engineers, contrary to popular belief, are always sparked with keen wit and a sense of comradeship. Often there is generous joshing of the top brass in the automobile world, because the top brass does a large share of the formal speaking. I like the one by Dr. Kenneth McFarland to the effect that "There's always room at the top because the people up there go to sleep and fall off." S. W. Sparrow is credited with the quip about an executive being "A big shot who hasn't been fired."

mont, have the same official rules for hand signalling. New York, New Jersey and Pennsylvania use three additional systems.

Doesn't Do Them Justice

The fact seems to be getting about in advertising circles that displaying new models via television isn't doing too good a selling job. Obviously this is due to the fact that the medium doesn't do justice to the beauty of new products. Advertisers have long since found it desirable to touch up even excellent photographs of their products for use in public prints, and where it is possible to use color the product gets an extra boost. All this is missing in the flickering of a TV camera. Nothing emphasized this more than the statement by one TV showman, "Wait until you see these new cars." Actually the viewers were already seeing them, but at a great disadvantage.

It is the opinion of the more astute observers that the best TV selling job for automobiles would be to show them in action covering strenuous tests. Unfortunately this has to be done with the aid of films which, in itself, further detracts from the appearance of the product.

What's Your Trouble?

Q. How can I lower the oil pressure in the motor of my car? I believe that the pressure is too high and thus causing high oil consumption. The relief valve isn't adjustable. H. G. S.

A. You can install a spring with less tension.

Q. I have noticed that if I ap-

proach a hill at a moderate speed the engine has a tendency to hesitate or even die out. Later it appears to run all right, or if I approach the grade at a higher speed, Wm. L.

A. This is an odd one, but it may mean that the motor thermostat is sluggish. If it is slow opening the engine may run hot enough to cause vapor lock which, in turn, would stall the motor.

Q. There is a decided hum in the rear end of my car when speed reaches 45 miles an hour. Do not hear it so much either under or over (Please Turn to Page 8)

B.F. Goodrich Tubeless Tire

Seals Punctures, Protects Against Blowouts ...

NOW DEFIES SKIDS TOO!

FIRST ANSWER TO ALL THREE TIRE HAZARDS

SEALS PUNCTURES—A gummy layer of special rubber under the tread seals against the puncturing object, plugs the hole permanently when the object is withdrawn.

PROTECTS AGAINST BLOWOUTS

—It has an air-retaining lining that's part of the tire itself. If a bruise occurs, the tire's flexing eventually causes pin-hole leaks in this lining. Instead of a dangerous blowout, all you get is a slow leak.

DEFIES SKIDS—In rain the new tread wipes a wet road so dry you can light a match on it, grips for quick stops. Starting up it grips like a caterpillar tread. The close spacing of the "grip-blocks" does it.

New tread wipes a wet road so dry you can light a match on it. This new B. F. Goodrich tire may save your life, can save you trouble, will save you money! Come in today and put a set on your car—see the tire that earned the name "LIFE-SAVER."

STEEL CONFAB AT WHITE HOUSE AS STRIKE ENDS

WASHINGTON (AP) — President Truman brought feuding steel executives and union leaders together at a White House meeting today aimed at settling their nation-rocking labor fight.

Truman planned to sit down face-to-face with CIO chief Philip Murray and a half dozen leading steel-makers whose attorneys have argued that the President's seizure of their vast metal industry lacked of dictatorship.

Strike Is Over

The three-day strike was over,

called off by Murray yesterday on Truman's plea. Some steel firms were baking, however, at heating their open hearths and blast furnaces again for fear another quick strike might wreck the expensive facilities. They demanded "assurance of continuing operations."

This slowed the resumption of steel production. U. S. Steel, giant of the industry and producer of a third of the nation's steel, was one of the firms reluctant to restore high temperature operations. Its plants at Gary, Ind., and at Pittsburgh and Alameda, Calif., were among those remaining shut down on company orders.

Elsewhere, mills said it would take from several days to as long as 10 days to get production to full blast again.

Take Serious View Of German Revolt

BONN, Germany (AP) — Allied sources Friday said the West is not going to concede any more

ment seizure was in the lap of the Supreme Court. The justices gathered for a regular Saturday conference on pending cases.

Two main points are to be decided. One is an industry plea — opposed by the government and Murray's CIO Steelworkers Union — that the administration be prohibited from raising steel wages while the industry is under government control.

The other point is: Was the seizure a violation of the President's power limitations under the Constitution or a proper exercise of his functions?

to get German troops for Western defense.

The Western Big Three, these sources said, take a very serious view of the revolt by two of the parties in Chancellor Konrad Adenauer's government coalition but won't give any more ground on the German demands.

The two parties, the Free Democrats and the German Party, have said they cannot approve the present form of the peace contract which the Western Allies and Adenauer have nearly completed. The act would give West Germany near sovereignty in exchange for a 400,000-man German contribution to the projected European Army.

Seek Ex-Convict In Schuster's Slaying

NEW YORK (AP) — A 36-year-old convict is being sought for questioning in connection with the March 3 killing of Arnold Schuster, the

Police Commissioner George P. Monaghan announced Thursday

that the ex-con, John Mazziotta, is believed to have been one of the last persons in possession of the gun which felled Schuster.

NON-FLYING AF OFFICER QUILTS

WASHINGTON (AP)—An Air Force officer facing a two-year prison term for refusal to fly has submitted his resignation and will escape the sentence if permitted to quit, says Biggs Air Force Base at El Paso, Tex.

But the Air Force here offered no official comment and declined to say whether this would set a pattern for handling other stay down fliers.

The resignation of Lt. Verne Goodwin was announced by Biggs officials a few hours after his father-in-law, Parker Cullom of Las Cruces, N. M., told an informal Pentagon news conference Goodwin would be allowed to resign "for the good of the service."

Biggs officials said the resignation was sent priority wire to Eighth Air Force Headquarters at Fort Worth for forwarding to Washington. Goodwin is now confined to quarters at Biggs.

The Texas air-base report said acceptance of Goodwin's resignation would mean that he would not have to serve two years in prison at hard labor with loss of pay, but his discharge "must be under conditions other than honorably."

Goodwin is one of 14 Air Force men whose refusal to fly has resulted in courts martial. Two cases have been dismissed and others are pending.

Willie Sutton Gets His Old Number Back

OSSINING, N. Y. (P)—Bank robber Willie "The Actor" Sutton was back in Sing Sing Prison today — with the same number he had when he escaped in 1932.

The notorious, slick convict arrived at Sing Sing last night. He was treated as a veteran inmate — receiving his old "84599" number, and being assigned to a segregation building rather than a "rookie" company.

Sutton, 52, was brought here from New York City only a few hours after Queens County Judge Peter T. Farrell sentenced him to 30 years to life for the \$64,000 robbery of a Queens bank two years ago.

that speed. My mechanic doesn't think it is due to incorrect mesh between the pinion and the hypoid rear end gear. The rear end has the right kind of high pressure lube. B. McN.

A. My suspicion is that this has nothing to do with the mechanical action of the car, but instead is vibration from the exhaust. This will often hum like noisy gears. Q. What is the best way to give overhead valves the extra oiling they need to check stickage? I've never before owned an engine, with this type valving, and want to do what I can to prevent trouble. K. H. B.

A. If you had used engines with overhead valves before you would have known first hand that they do not develop as much stickage as do side valves in L-Head motors. The reason is that the valves in the overhead job are out of the way of raw gasoline which, during chocking, so often washes oil from the stems of L-Head engine valves and then leaves gummy deposits. I do not say that top cylinder oils and oil additives are not useful in any
